# ACCENDO LIGHTING

General Description:

The Accendo Lighting slip strip is a specification-grade LED strip ideal for offices, conference rooms, retail, and hospitality applications.

The Slim Profile Strip offers a sleek, aesthetically-pleasing appearance without compromising illumination. It has a small profile body, only 2.6" high, and has no visible hardware or mounting holes. Available in 2, 4 or 8-foot models, this new luminaire has a variety of lumen packages ranging from 1500L (19W) to 14,000L (106W) and offers a precision-edged acrylic round or square lens. To keep a consistent look with existing architecture, it's available in matte white, matte black, or silver finishes. Additionally, a symmetric, triple wave or brushed metal diffusing lens insert can provide an even more elegant look. Like many of our products, the strip is "controls ready" to work with virtually any network controls or building automation.

FEATURES

- Lumen packages ranging from 2000L to 6500L.
- An energy-efficient LED luminaire that can be mounted individually or in a continuous row.
- Offers high performance lighting in a cost-efficient strip.
- Small profile body with no visible hardware or mounting holes.
- Power and CCT selectable.

CONSTRUCTION

- Code gauge steel, pre-painted gloss white.
- Optional factory power coat providing a durable and premium finish.
- Symmetric diffuser is available with the round and square lens, providing smooth and even lighting.

ELECTRICAL

- Voltage: 120-277V AC input
- Driver: Class 2, constant current, calibrated to lumen package (0-10V dimming standard)
- Operating temp: -40°C to +40°C (-40°F to +104°F).

CONTROLS

- On/Off occupancy sensor and programmable smart sensor with daylight harvesting available.

MOUNTING

- Surface and adjustable cable mount ready.
- Optional cable canopy and pendant mount accessories available.

WARRANTY

- Backed by Accendo's limited 5-year warranty.
